

Cell Technology and Hitachi Solutions Value Enter Partnership

Hong Kong, 1 July, 2012 – Cell Technology (Cell), a network & security technology provider headquartered in Hong Kong announced today that business partnership is formed with Hitachi Solutions Value in Japan. Hitachi Solutions Value will resell and market Cell Janus, Multi-WAN Service Gateway and its product solutions in Japan. Hitachi Solutions Value, a subsidiary of Hitachi Solutions, was found in 1986, a technology and advanced solutions providers to supply IT systems and network infrastructure solutions in community in Japan.

“Cell Janus, one of our key network product solutions with multi-homing technologies have successfully penetrated into most of the major telecommunication service providers, government networks and large enterprises in Japan. We continue to expand strategic partners and increase customer installation bases there. We are committing to develop innovative network applications to fulfill high performance and quality of Japanese’s IP network requirements,” said Derek Lee, Cell CEO. “Hitachi Solutions Value recognized our Cell products with professional and high quality on hardware and software technologies. We are very glad to partner with Hitachi Solutions Value to offer Cell product solutions to her customers in order to optimize the IP broadband WAN bandwidth and applications.” said Inada Yoshinobu, Cell Country Manager of Japan.

“We offer new technologies, services and advanced IT system solutions to our customers covering most of community networks in Japan. High capacity, reliability and performance of IT system solutions are very important in Japan for business continuity. We are very glad to resell and market Cell product solutions to provide such services to our clients.” said Mr. Junji Hashimoto, CEO of Hitachi Solutions Value.
