#### Cell Product

#### Cell Janus ZX New Models

ZX-6-4000 (6xGE WAN, 1x10GE LAN, 4Gbps)

ZX-6-6000 (6xGE WAN, 1x10GE LAN, 6Gbps)

*With dual feed AC power supply, hot-swappable, load-sharing  
100-240V AC*

#### Overview

Cell Janus is a Multi-WAN Service Gateway with Cell's proprietary Custom Real-time Intelligent Operation System (CRiOS) and unique Intelligent Packet Processing Engine (IPPE) developed and embedded into an appliance system for worldwide market. It provides sophisticated capabilities of link dynamic load balancing with inbound and outbound, stateful firewall, intelligent NAT (iNAT) and intelligent routing capability, QoS (Quality of Service), link monitoring and automatic failover that keep business connected even during link failure and support triple-play services at a quality level for enterprises and service providers.

This new product release update highlights the new features, enhancements or bug fixes that have been added to Cell Janus since last release. This document to partners or customers is for marketing purpose and the details are in our Cell Janus product datasheets or release notes that can be downloaded in Cell e-TAC.

#### New Features

Cell Janus ZX models will support the following new features in newer release (v5.2.0)

- Support 2 models with 4Gbps and 6Gbps system performances and inline all the features with other models
- Support up to 6 WANs (with GE) and 1 LAN (with 10G fiber interface) connected to different service providers or ISPs.

#### Cell Support Centre

For any Cell partner or direct customer technical support, the **Cell e-TAC (On-Line Technical Assistance Centre)** is located at <http://support.cell-technology.net> for you to download any technical documentation, product information and latest product software release for our product installation and maintenance.
