Overview

Cell NetsVision, an intelligent Cell Management System (iCMS) is the complete, comprehensive and centralized management platform to monitor, control and manage for all Cell products including Cell IPS, UTM, Janus and NetsAccess such as routers, IP switches & other IP network devices in a highly performance and scalability purpose.

This product release of Cell NetsVision iCMS-Janus, a centralized management platform of Janus products highlights the new features, enhancements or bug fixes that have been added to Cell iCMS-Janus since last release. This document to partners or customers is for marketing purpose and the details are in our Cell NetsVision product release note that can be downloaded in Cell e-TAC.

Cell iCMS-Janus v2.2.0 Release :

- To fix the minor bugs in last version.
- To support CLI and LCD for Cell iCMS Commander to configure the server and check the status easily.
- To support the new model, Janus EX product.
