This product release update notice serves as a formal marketing communication of Cell Technology to inform partner/or customer that Cell product(s) has been enhanced/or released into the market.

Cell Product

Cell iCMS-MG for MiniGuard

Complete & Centralized Management Platform for MiniGuard Product

Lionic's MiniGuard (MG) Product

Lionic's MiniGuard, a Network Security Adaptor provides network layer 7 security protection to the connected equipments after Internet accessed devices. It provides transparent security features like Firewall, Anti-Virus, Intrusion Prevention System (IPS), Instant Message (IM), Peer-to-Peer (P2P) application control and malicious drive-by download attacks prevention, and URL Filtering.

Overview

Cell NetsVision, an intelligent Cell Management System (iCMS) for Lionic's MiniGuard (MG) Product is the complete, comprehensive and centralized Element Management System (EMS) platform for operation, administration and management (OAM) in highly performance and scalability purpose. This EMS provides mainly for network fault, performance, configuration and security managements for carriers, large enterprises and service providers.

This product release update highlights the new features, enhancements or bug fixes that have been added to Cell iCMS-MG since last release. This document to partners or customers is for marketing purpose and the details are in our Cell iCMS-MG product datasheet or release note that can be downloaded in Cell e-TAC.
